You’re About to Learn 9 Power-Packed Hypnotic Language Patterns

Warning: These hypnosis patterns can be extremely influential! Only use for ethical purposes!

One of the greatest skills you can sharpen is your ability to influence others.

In fact, an entire session of the Rapid NLP “Learn NLP At Home Course” is dedicated to hypnotic language and the power of persuasion!

With these hypnotic language patterns you can learn to wake people up out of their day-to-day “auto-pilot” mode and reclaim their passions.

The patterns in this report are incredibly easy to learn but... don’t underestimate how effective they can be to influence others.

Congratulations! You’ve just started your journey to mastering the “hypnotic language.”

Use these patterns to:

• Influence others to help get what you want!

• Make more money smarter and faster than you ever have before

• Ethically “hijack” someone’s mind and send them on a wild adventure

• Make your customers happy and eager to buy from YOU

• And much, much more!

BEFORE YOU BEGIN:

In a moment you are going to learn 9 Power-Packed hypnotic language patterns that you can start using today to be more influential.

But first... Here is how you can make these patterns even more persuasive.

It has to do with tonality and how you say each pattern.

For instance, when someone asks a question, their voice inflection rises at the end. And when someone makes a command, their voice inflection goes down at the end.

\[
\text{Voice inflection} \quad \uparrow \quad = \quad \text{Question} \\
\text{Voice inflection} \quad \rightarrow \quad = \quad \text{Statement} \\
\text{Voice inflection} \quad \downarrow \quad = \quad \text{Command}
\]

With the following hypnotic language patterns you will be using the command tonality – even if it is written in the form of a question.

These patterns are even more effective when you put a slight emphasis on the command you want to give. These “embedded command” influence the subconscious mind without being detected (and rejected) by the conscious mind.

In the following examples, you can practice saying the embedded commands that are in italic.

Practice saying each hypnotic language pattern with different tonality and emphasis and notice how that changes the effect.

And while you are reading through each pattern, come up with examples that will work in YOUR daily life.
9 POWER-PACKED HYPNOTIC LANGUAGE PATTERNS:

#1 The fact that _______ means __________.

Simply state a fact and apply your own meaning to it.

“The fact that you are reading this report means that you are going to master the art of conversational hypnosis quickly and easily.”

“The fact that you have come here today means that you are ready to take advantage of our once-in-a-year sale.”

#2 How would you feel if you _________?

The word “would” makes it a theoretical question - one that is safe to throw out in most contexts. You can even change the tense on the second part of the question to make it even more influential.

“How would you feel if you were driving this new car home tonight?”

“How would you feel if you had the power to quickly influence anyone you wanted using NLP and hypnotic language?”

#3 Don’t _______ too quickly.

With this statement you are using the presupposition that they are already going to do what you’re saying - just not too quickly.

“Don’t go into a trance too quickly”

“Don’t relax too quickly, you’re not sitting in your favorite chair yet.”

DO THIS!

Make up your own example for each hypnotic language pattern!
#4 You may have already started to notice _________.

You may have already started to notice or you may be about to, but either way - you need to think and imagine yourself starting to notice.

And once you have started to notice it will be much easier to continue.

“You may have already started to notice a calm, soothing feeling coming over your entire body.”

“You may have already started to notice how confident you feel just by trying on these new pair of shoes.”

#5 When you really begin to __________ then ___________.

When you do ‘a’, then you can have ‘b’. It’s so compelling that it doesn’t even need to be based in fact.

“When you really begin to study hypnotic language patterns then you will be able to influence anyone wherever you go.”

“When you really begin to think positively about your life then you can finally have what you’ve always wanted.”

#6 A person could _________.

A person? Which person? The unconscious will assume it applies to the person you say it to.

“A person could master the art of conversational hypnosis with just a few minutes of practice per day.”

“A person could easily make millions of dollars, travel the world and live a happy, healthy life.”
#7 By the time you’ve started to ______ you will ________.

By the time you’ve started to? When exactly is that? I don’t know, but by the time you’ve started to discover that, the suggestion has already gone in.

“By the time you’ve started to notice how powerful these hypnotic language patterns are you will have already begun to implement them into your everyday language.”

“By the time you’ve started to feel hungry you will want to take me out for lunch.”

#8 Can you imagine _______?

Can you imagine it? You have to imagine it to find out if you can or not.

“Can you imagine what it would be like if we went on a fun and relaxing vacation together to Hawaii?”

“Can you imagine how your co-workers will respond to you when you are more persuasive and confident?”

#9 What happens when you ________?

I’m only asking, but to find out what happens you will have to do it.

“What happens when you imagine yourself being financially free to do whatever you want?”

“What happens when you take a deep breath and think of something that really makes you happy?”
3 Steps To MASTER The Art Of

POWER PERSUASION

STEP 1: (COMPLETED)

• Finish reading all the examples in this “Hypnotic Influence” Special Report

STEP 2: (COMPLETED)

• Make up one new example for each hypnotic language pattern that you can use right away.

STEP 3:

• Read about the “Learn NLP At Home Course” and discover even more ways to ethically persuade and influence others: http://www.RapidNLP.com
